PKI Solutions Announces New 'Introduction to Certificates & Keys' Training Course
Self-paced course provides an introduction into digital certificates and keys designed for everyday computer and server administrators as well as those starting their PKI career.

PORTLAND, Ore., April 11, 2022 — PKI Solutions, the experts in Public Key Infrastructure (PKI) consulting, training, and support services, today announced a new *Introduction to Certificates & Keys* training course. This course includes a strong emphasis on security and best practices to help everyday computer and server administrators as well as other IT team members build their foundational digital certificate and encryption key knowledge through hands-on skills labs.

"Organizations that are committed to maintaining the highest level of cybersecurity to protect their data need to have a highly educated IT team with a broad base of cybersecurity knowledge – including knowledge about the basics of PKI. That's why we've specifically designed our new *Introduction to Certificates & Keys* training course as a great introduction to PKI for developers, desktop admins, IT helpdesk professionals, as well as people starting their PKI career," said Mark B. Cooper, president and founder of PKI Solutions. "Our instructors are the best in the business with more than 50 combined years of PKI experience. So, no matter if students are novices or seasoned IT veterans who have little knowledge of PKI, this course will be very useful for them."

PKI Solutions' new *Introduction to Certificates & Keys* course features video, audio, and slide-based content that is delivered electronically so students can learn in a self-paced online environment. Students receive 90-day access to view and access all the lessons, and download the student materials, lab manual, and supporting materials.

Students who sign up for PKI Solutions' new *Intro to Certificates & Keys* training course by Monday, April 25 will receive a special introductory price of $750 -- a savings of more than $200 from the course value of $995.

Introduction to Certificates & Keys - $995 for 90 days
*Promotional pricing: $750 until April 25, 2022

This self-paced training course takes students on a deep dive into Digital Certificates and Key Usage, explains basic concepts for Windows and Linux, and includes a strong emphasis on security and best practices while providing students with hands-on skills labs.

Microsoft PKI In-Depth – $2,995 for 90 days

The ability to design and manage a PKI is highly dependent on the skills and knowledge of those who are managing it. That's why this self-paced Microsoft PKI in-depth course is so valuable. This course is a deep dive into PKI and Active Directory Certificate Services (ADCS) and focuses on helping you build your knowledge and skills with all of its features. There is a strong emphasis on security, best practices, and hands-on skills labs.

Microsoft ADCS Advanced - $2,995 for 90 days

This self-paced training course is recommended for anyone who has taken the Microsoft PKI In-depth training course or is already familiar with Microsoft ADCS and is comfortable in a lab environment working with Certificate Services.

To take advantage of PKI Solutions' training course promotion, which ends **Monday, April 25, 2022**, use discount code **PKI-TRAINING** at pkisolutions.com/shop/introduction-course. For more information about PKI Solutions training, visit pkisolutions.com/training.

About PKI Solutions

PKI Solutions offers Public Key Infrastructure (PKI) products, services, and training to help ensure the security of organizations now and in the future. With deep knowledge and experience in all things PKI, PKI Solutions has developed PKI Spotlight, the industry's first and only solution that provides real-time monitoring and alerting of the availability, configuration, and security of all of organizations' PKI environments – all consolidated into one easy-to-use dashboard. PKI Solutions has led hundreds of PKI trainings, including private trainings, across the country and around the world. PKI courses, taught by the company's founder and president, Mark B. Cooper, known as "The PKI Guy," are available online. For more information about PKI Solutions, visit https://pkisolutions.com/.
