## Protecting Critical Infrastructure: Enhancing Resilience by Managing Digital Certificate Vulnerabilities

Join President and Founder of PKI Solutions Mark B. Cooper, and Jason Cromes, Manager of the Identity Security organization at Southern Company, as they delve into the latest advancements in security and resilience of digital certificates and PKI in critical infrastructures 10:30 AM on Tuesday, July 23rd.

## Want to Know Where Your Cybersecurity Blide Spot is?

The resilience and security of your PKI digital certificates are mission-critical to utilities. Outages can be disastrous. Energy utilities trust PKI Solutions for their deep expertise in digital certificate and hardware security module (HSM) security experience across IT, OT, and Corp environments, ensuring CIP resilience. Our customized end-to-end approach—from design to build to monitoring and support, is tailored to the unique business needs of Energy Utilities.

**19TH ANNUAL ENERGYSEC SECURITY & COMPLIANCE SUMMIT**

Anaheim, CA, July 22-24, 2024
